FLOOR DEBATE

February 28, 2002 LB 600

of...subclass...each of the production capability groups within the subclasses. And, essentially, the...the new section would read: When the total value of subclass of agricultural/horticultural land within a county has been determined by the method described, and that is the language that's in the bill, the county assessor shall distribute that value within that subclass in proportion to the acres found in each land capability group of that subclass in the county. The total subclass value shall remain unchanged by the distribution. There was also a question raised yesterday about sub land capability groups. Those are defined for the assessors in the rules and regulations of the Department of Property Assessment and Taxation. They're not a strange...a strange term. Land capability groups are groups of soil that are similar in their productivity and their suitability for most kinds of farming. It is a classification based upon the capability classification production limitation of the soil, the risk of damage that they have for ordinary field crop, grass, and woodlands and the way they respond to treatment, that is, irrigation or farming by dryland. So there's a...a well-used, familiar to the assessor definition. What I would ask this morning, then, is that given...

SPEAKER KRISTENSEN: One minute.

SENATOR COORDSEN: ...the fact that there are a number of other senator priority bills backed up, that LB 600 be moved to Select File and held there for a moment while we in my office, and those who find problems with it, have a chance to look at the...the technical meanings of the process that's described to ensure that questions are asked off the floor and answered off the floor in those areas where most of us are not expert. So that would be my request in the absence of the drafted amendment, Mr. Speaker. Oh, it's here?

SPEAKER KRISTENSEN: Senator Chambers.

SENATOR COORDSEN: Um...would...

SPEAKER KRISTENSEN: Oh, excuse me, Senator Coordsen, you've got a few seconds left.
